

"How I Banish Arthritis Pain— Quickly & with out Drugs— even while Playing Winning Tennis"

"My name is Robert. I love to play tennis— in spite of the fact that I have advanced-stage arthritis.

"Now, thanks to new **PENETRAN PLUS**, I can play tennis without pain. I can run a little and even bend the afflicted knee repeatedly throughout my tennis matches I couldn't do until I started using **PENETRAN PLUS**."

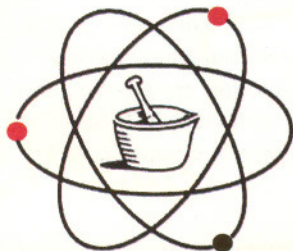

How does it work so well? According to Dr. Julian Whitaker, MD, noted alternative

care physician and author of *Health & Healing*, **PENETRAN** contains nitrogen compounds called quaternary amines, (the primary agent for most injectable anesthetics, including Lidocain & Novocain), which gives it outstanding analgesic and healing properties— without the needle.

PENETRAN PLUS now adds the power of **MSM**. According to Dr. Stanley Jacobs of Oregon Health Sciences University,

"patients widely report that sore, stiff or inflamed joints respond remarkably to **MSM**, as do bursitis and rheumatoid arthritis."

PENETRAN PLUS is available at only a very few stores in Louisiana. It is, however, available here at **Boudreaux's Specialty Compounding in Shreveport for just \$16.98 for a 2.5-ounce tube.**
